

What to Bring- Packing List

Bags

On guided tours- Each rider is allowed one main bag (up to 25kg) and one small day pack to be stored in the back up vehicle. You will have a top box fitted onto your bike for daily use items.

Riding Gear to Bring:

On our tours we have a strict **A.T.G.A.T.T** Policy. This means **All The Gear, All The Time. This is for your own safety.**

- **Full face riding helmet**- with good ventilation and a safety rating
- **Biker Jacket**- Bring a breathable jacket with a removable lining. You may or may not use the lining, but it is good to have in case it gets chilly in the mornings. Your jacket should have elbow and shoulder pads and be made out of a super strong material such as Cordura
- **Biking Pants**- Pants that have **Knee protection are essential** – they should also be made out of a strong material such as Cordura
- **Motorcycle Boots**- It is essential that boots have **good ankle protection**
- **Gloves**- summer gloves that are breathable and waterproof are essential
- **Rain Gear**- A set that can be quickly pulled over your other riding gear is a good idea and also can be worn to keep warm on chilly mornings
- **Sunglasses**
- **Sama Tours rents out Helmets, Gloves and Biker Jackets.** There is also a shop nearby that sells affordable biking gear such as boots and pants

Personal Clothing
